

JULY 2025

EXPLORE THE 2025 COLLECTION @ COMPANY SHOWROOM & SUPERSET

By **Minotti Studio**, the entire area, spanning 1000 sqm, develops as one harmonious scenario that invites visitors to immerse themselves in a series of elegant living, dining and night settings, evoking the feel of ideal residential and Hospitality spaces.

The unique interplay of perspectives and raised islands, in a frame characterised by Piasentina stone, grey concrete and warm wood panelling, enhances the different stylistic languages of the furnishing pieces from the **2025 Collection** – including the modular seating systems **Coupé** by Giampiero Tagliaferri, **Bézier** by Marcio Kogan / Studio MK27, **Vivienne** by GamFratesi, **Saki** by Nendo and **Riley** by Hannes Peer – along with the brand's best-sellers.

The floor-to-ceiling windows overlook the terrace, where the novelties for the open-air, enlivened by a natural colour palette, take centre stage, creating a fluid dialogue between indoors and outdoors.

In constant evolution, the **Company Showroom** is the perfect place to welcome customers and professionals to experience a fascinating and inspiring fusion of design, architecture, art and decoration.

The **SuperSet**, the supplementary exhibition space adjacent to the Company Showroom, has also been recently renovated to welcome the **2025 Collection**, reflecting its aesthetic and the stylistic theme of the latest display at the Salone del Mobile.Milano, with skilfully orchestrated combinations of materials and colours.

Between surfaces in Tanganyika walnut, Travertino stone, chalk and clouded steel, the entire project expresses a contemporary reinterpretation of living, highlighting recent indoor and outdoor design proposals.
